- Rounded edges
- Indented non-slip sole
- No excessively pronounced ripples/obstructions

Not allowed

Allowed

“Lawn Bowl shoes by design are manufactured from material which is softer than the surface that they are worn on, shoes (sneakers) by design have hard soles which are designed for hard surface wear. These shoes should not be worn on artificial or grass surfaces if you wish to prolong the life of your greens”

“Bowls shoes usually last for up to two seasons for active bowlers whereby various sneakers can last for years due to the design hardness of the sole, use of these must be discouraged.”

The late Alan Berry
